

HO HO HO... HELP!

Dear Christmas helpers,

I have a very big problem.

Tonight I have to bring all the presents to the children, but I lost the magical golden key to my big gift bag in the snow! Without that key, the bag stays locked with a heavy combination lock and I won't be able to hand out the presents.
My reindeer searched everywhere and found six envelopes in the snow.

Inside each envelope is a Christmas puzzle and a sticker for your sticker sheet. The sticker shows the next hiding spot.

If you solve all the puzzles, you will find the secret code to open the bag.

Will you help me save Christmas?

Good luck!

P.S. My reindeer already secretly hid the very first envelope (Envelope 1) in the living room.

*Take a look at the new winter map at **Number 1!** That's where you'll see the footprints start.*

🕵️ ***The first clue:*** *The envelope is hidden in a cozy, soft spot where you like to sit to watch TV or read a book...*

*Quick, look near the **COUCH!***
